### FATHER-DAUGHTER TEAM PRODUCES RECORD OF SONGS

Dixie Record Company, Nashville, Tennessee, has just released "A Newsboy on Christmas Eve" and "Some Boy's Dad," the result of the teamwork of Earle L. Wingo, prominent Miss. criminal trial lawyer and his daughter, Pat Spencer of Hattiesburg. They are the father and sister of Mrs. Mike Hbas of Bay St. Louis.

The lyrics for both songs were written by Mr. Wingo some 40 years ago while he was studying law in a basement of a Hattiesburg drug store, where he was employed as a soda-jerk. Ideas for both songs came from actual street scenes in Hattiesburg observed by Mr. Wingo from a basement window during the course of long hours of studying law. His daughter Pat, put the words to music, and was asked several weeks ago to sing the songs on a television program broadcasted by Station WDAM in Hattiesburg.

A recording contract was signed with Dixie and the company in addition to releasing the record is publishing the songs in sheet music form. They will be distributed throughout the US and Canada.

"Some Boy's Dad" tells the story of a dejected homeless old man found on a crowded street by a young boy who took him home and cared for him because as the song goes "I know he's some boy's dad."

"A Newsboy on Christmas Eve," an orphan newsboy longs for the happiness that comes from toys on Christmas but would gladly give them all away if he just had his mother and dad.

Charles Carter, Jr., owner-manager of the Music Box, Railroad Avenue, announced that his shop has the new record in stock and will have the sheet music available in the near future.

**"Don't Give Grief For Christmas" Warns Safety Commissioner Shelton**

"Don't give grief for Christmas. This grim warning comes from Public Safety Commissioner Thomas Shelton who points out that December leads all other months in total traffic fatalities and Christmas is considered the most hazardous holiday of the year.

Last year during the 10-day period leading up to and including Christmas Day, Dec. 15 through Dec. 25, Mississippi traffic accidents killed 25 persons. Twelve died as a result of Christmas Day road mishaps.

This follows the usual December accident trend, according to Commissioner Shelton.

As pre-Christmas preparations gain momentum, with hurried last-minute shopping and the usual round of Christmas parties, highway fatalities mount, until a peak in traffic deaths for a single day is reached, normally on Christmas day. Then, the accident toll falls off sharply.

Commissioner Shelton points out that several factors contribute to this sharp rise in mid-December crashes.

The magnitude and scope of the annual Christmas celebration itself are perhaps foremost causes. The Christmas holiday is by far the biggest holiday celebration in the South, yet it comes at a time of year when driving conditions are most hazardous.

Bad weather and shorter daylight driving hours are potential highway hazards at any time, and would contribute to increased December traffic accidents with or without the companion dangers which Christmas creates. But when adverse winter weather, night driving, traffic congestion, and abnormal traffic flow are combined with excessive indulgence in the

wrong Christmas "cheer" and the bright, blinding Yuletide street scene, traffic hazards multiply. Commissioner Shelton urges Mississippians preparing for this Christmas holiday to reorganize these potential hazards.

"Please drive alertly," he appeals. "Above all else, keep grief off your family Christmas shopping list."

**Christmas Lights Glowing On City Streets**

Various colored lights traditional during the Christmas season, are glowing on Main Street the business sections of Beach Boulevard, Necaise and Railroad Avenues, and Hancock St.

The court house entrance has taken on a festive look, and the seminary grounds facing Highway 90 are particularly attractive with the large Santa Claus and reindeer installed last week by E. M. Brignac of Industrial Electric Company.

Adding to the Christmas spirit was the arrival Saturday afternoon of Santa Claus. Following a parade thru the city's streets, he stopped at Kern's, where he listened to the many requests of his young followers and with Christmas just two weeks away the local stores are showing many attractive gifts and window displays.

**Spring Festival To Be Held Saturday, April 29**

**WATER AND POWER PROBLEMS**

A meeting of representatives from Harrison and Hancock Counties was held last Wednesday in the Agricultural Building to discuss and study ground water problems.

The meeting was one of 28 such area meetings held simultaneously throughout the state called by the Mississippi Board of Water Commissioners because of a continuing drop in the water table during recent years. The state board said the matter has become a serious problem in Mississippi.

Data gathered at the September meeting was compiled by the state board and a list of conclusions and recommendations was distributed Wednesday at the meeting.

Norton J. Haas Jr., local consulting engineer, discussed the various water problems and the state recommendations with the committee who listed some of their own pertaining to this locale.

Recommendations are:

1. Development of a program to inventory the water resources of the State. This program must be adequately financed, and should include information about quality as well as quantity; as a basis of informing the people of problems and needs and a basis of helping them remove problems as they arise.

2. Application of corrective measures to correct conditions that are presently polluting some water supplies. Steps must be taken to prevent additional wells from being polluted in the future.

3. Adequate funds supplied for responsible agencies to provide sources of information for the public about inter-relationship between surface and ground water and the important matters.

4. Consideration of measures that will provide means to shut off the flow of all abandoned flowing wells, and all future flowing wells drilled should be provided with means for controlling the flow.

5. Consideration of measures that will provide means to properly fill all abandoned test holes, water wells, and other sources where pollution may be introduced into the ground water supplies.

6. Provision of a responsible agency with sufficient funds to enact a program to encourage methods of re-use of cooling water in order to conserve future supplies.

7. Consideration of a program that will provide sufficient technical data on ground water resources to facilitate proper planning of the spacing of future wells.

8. A program to determine the source of salt water that has been found in the water wells, provide a periodic check in the areas near salt water disposal wells to determine effects, and to study means of developing industrial uses of the salt brines that are now causing disposal and other problems.

**Safety Belts For Health Workers**

Some 800 public health workers are expected to begin using automobile safety belts, following a memorandum issued today by Dr. A. L. Gray, Executive Officer of the State Board of Health.

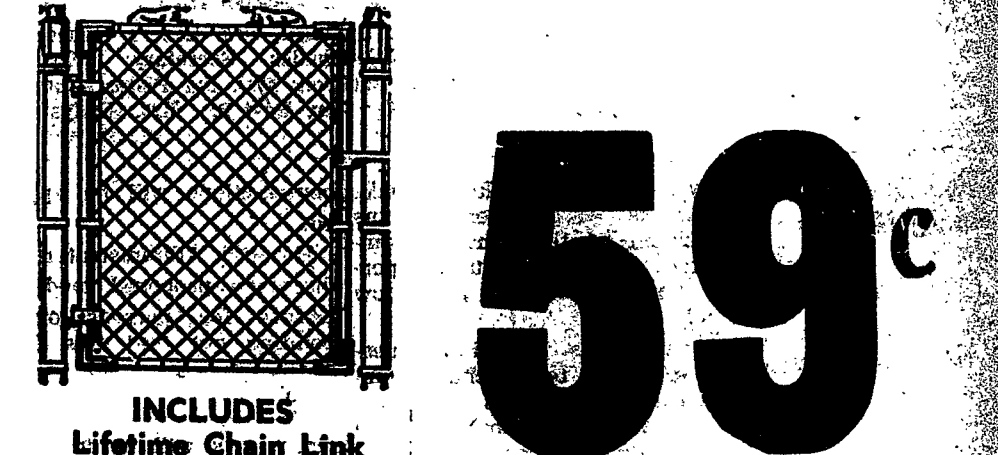

"ALL PUBLIC health workers are urged to install seat belts in your cars - at least in the front seat - and use them," the state health officer's notice stated. "They should be used at all times - on short trips as well as on long ones."

THE USE OF safety belts as a part of the State Board of Health's Accident Prevention Program had been under consideration for some time.

HOWEVER, AN unfortunate highway accident which caused serious injury to six Holmes County public health workers prompted Dr. Gray to take immediate action.

THE INJURIES of our personnel who were struck by a reckless law-breaker would have

### 4-H Agricultural Awards Winner

Ronald Smith, 17, of Minter City, Mississippi, receives \$400 scholarship from Frank W. Jenks, International Harvester president, during 39th National 4-H Club Congress in Chicago. Ronald was one of the six winners in the National Agricultural Awards Program sponsored by Harvester.

CHICAGO—Ronald Smith, 17, of Route 2, Minter City, Leflore County, Mississippi, was one of six young 4-H Club members singled out for special honors during the 39th National 4-H Club Congress recently held in Chicago.

Ronald, as did five other national winners, received an all-expense trip to the congress and also was awarded a \$400 International Harvester scholarship as a result of his outstanding record in agricultural projects. The objectives of the program, known as the National 4-H Agricultural Awards, are to develop leadership and gain a better knowledge of those agricultural projects and activities which contribute to better farming and a more satisfying rural life.

Arranged and announced by the National 4-H Service Committee, the program is sponsored by International Harvester Company and conducted by extension service of state agricultural colleges and the U. S. Department of Agriculture. Ronald, the son of Mr. and Mrs. U. A. Smith, is a Leflore

County High School senior. He has spent seven years in 4-H Club work and is a member of the Leflore County High School 4-H Club.

Since Ronald has been in 4-H, he has completed 114 projects, which include work in beef, dairy, cotton, corn, and pasture. He rents acreage on which he grows oats and milo which he uses to feed his steers and dairy cattle.

For work around the farm, his father gave him grade calves, which Ronald sold and bought registered Holstein heifers. From the Holstein sales he started a beef project and now finances his own projects.

Ronald won first prize in his district dairy exhibit in 1958 and was interstate resident grand champion for his beef exhibit in 1958, '57, and '58. In 1959 he had a champion shorthorn in the state fair. In 1958, Ronald won a trip to the national contest for his general livestock demonstration and has won showmanship prizes from 1957 to 1959 in district, state, and interstate contests for beef.

### ASKS FOR FEDERAL PRICE SUPPORT ON 1961 COTTON CROP

Washington, D. C.—Senator John Stennis today called for federal price support of at least 75 percent of parity on the 1961 cotton crop.

This is the same level offered farmers in 1960, Stennis said, but a 1958 law permits the Secretary of Agriculture to set the minimum price support at 70 percent for 1961, with discretionary powers to raise it.

Stennis urged the new secretary to use his discretion in holding to the 75 percent level.

"Improvement in supply and demand fully justifies a level of 75 percent Stennis said.

He said improved domestic consumption and increased exports

are expected to reduce the surplus carry over to 6 1/2 million bales from a 14-million-bale surplus several years ago.

"This carry-over," Stennis explained, "has been a major factor responsible for price reduction."

Stennis explained further that the recent increase of two million acres in cotton acreage allotments for 1961 "was justified by improved domestic and foreign consumption of American cotton."

"In all fairness to our farmers," Stennis said, "the new secretary of agriculture should keep faith and prevent any further reduction in price support."

The secretary is required to announce the 1961 price support before planting time, if practicable.

### LAUREL MUSEUM UNUSUALLY UNIQUE WITH FINE EXHIBITS

Laurel's Lauren Rogers Museum of art possesses exhibits unique among small museums. For example, the second smallest basket in existence is included in its basketry exhibit. Another unique collection is of ancient Bibles, and the museum has a permanent collection of 100 small paintings. The building itself was built in 1922 and is a work of art styled in Georgian colonial fashion with stately pillars.

**Importance Of Periodic Physical And Dental Examinations**  
Connecting the importance of periodic medical and dental examinations of school children that are now being stressed by health departments throughout the State, Dr. A. L. Knight, Executive Officer of the State Department of Health, said today that they are vital to a child's growth and development.

The many things the physician and dentist point out will be most helpful to the parents in understanding the child's physical and emotional needs.

Dr. N. C. Knight, Medical Director of the School Health Program, says, "The findings from the screening examinations are also helpful to those with whom the child comes in daily contact—his teacher, the public health nurse, the lunchroom manager and others."

"The medical and dental examinations provide them with the basic information they need to know about the child's growth and health."

**TOYS FOR THE CHILDREN OF THE WORLD**  
Many dollars will be spent on toys for children this Christmas, and unless chosen with care, they can cause accidents. The trick in buying toys is knowing which toy is best for which child. For instance, a marble is a safe toy in the hands of a ten-year-old boy or girl, but it becomes a menace to a one-year-old youngster who may place the marble in its mouth.

**LARGER RICE CROP**

Yield per acre as of November 1 was indicated at 2,800 pounds—200 pounds above the 2,700 pounds realized in 1959.

Johnny built a snowman! From white, cold snow he made it. It was hard work, and Johnny was justly proud.

Johnny built a snowman—in a day! He packed the snow hard, put in coals for the eyes and nose, and Daddy's hat was placed on top.

But far more of Daddy than just his hat went into this snowman. Just as Johnny worked hard to build the snowman, his father is hard at work too . . . building Johnny. Daddy's greatest dream is to see Johnny moulded into a man of strength, vision, and character.

Luckily for Johnny, Daddy is a wise father. He realizes that the most important single influence upon his son's life is the teaching of Christ. Daddy will see to it that his son receives that teaching by sending him to Church services regularly. In making certain that Johnny knows the beauty of God's words, father will see his greatest dream come true.

### THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## SAFETY COUNCIL DIRECTORS ELECT 1961 OFFICERS

Otha R. Smith of Meridian was elected to serve as President of the Mississippi Safety Council for 1961.

The election was held in Jackson, Miss., during the Council's Annual Board of Directors meeting.

Smith, a partner in the F. W. Williams State Agency, is a charter member of the Miss. Safety Council, and is one of the state's leading proponents of a comprehensive safety organization.

He is one of a group of the state's outstanding businessmen who conceived the idea of a citizens safety council and has contributed substantially to its success since the organization began its operation in June of 1958.

Smith is a native of Newton County and a graduate of the University of Mississippi. He is a past president of the Ole Miss Alumni Association.

He is married to the former Emily Drouse. They have two children: A daughter, Sylvia, now a graduate student at Emory University, and son, Tim.

Elected to serve with Smith are Vice President: Balmer Hill, Armstrong Tire & Rubber Company, Natchez; Donald J. Gray, Miss. Power & Light Company, Jackson; and Morris Meyer, Starkville Printing Company, Starkville.

Secretary: C. A. Miller, Executive Vice President, Bank of Greenwood; and treasurer, Tom Cameron Partner, Lamar Advertising Agency, Jackson.

The Mississippi Safety Council has developed accident-prevention programs in all fields, paying particular attention to traffic accidents which claim more than 500 lives each year with a total dollar loss of some eighty million dollars.

The Council sponsored the Compulsory Motor Vehicle Inspection law, passed at the last session of the State Legislature, and will introduce new legislation to strengthen the drivers license law when the Legislature meets again.

## NEW MISSISSIPPI CANTALOUPE HAS WIDE POPULARITY

State College, Miss.—When Dr. S. S. Ivanoff, of the Mississippi Agricultural Experiment Station, developed a new cantaloupe a few years ago, he named it Homegarden because he thought it especially suitable for growing in home gardens.

However, its fame has spread so far that recently he received a request from Panama for a substantial supply of seed.

The Homegarden cantaloupe was bred especially for its flavor. It has a high sugar content and a rich salmon color. The new variety, developed from a West Indies muskmelon and a California melon, is not considered suitable for shipping but is intended to be consumed in the area where it is grown. Since its release in 1955 it has become popular over a wide area.

As head of the Experiment Station Plant Pathology Department at Mississippi State University, Dr. Ivanoff's research concerns control of plant diseases. One of the best ways to control such diseases is to breed resistance into the plant.

Homegarden moderate field resistance to downy and powdery mildew and high resistance to aphids or plant lice. It is also resistant to leaf worms to some extent.

Homegarden is one of three disease resistant crops developed in recent years by Dr. Ivanoff's breeding program at the Mississippi Station. A wilt-resistant watermelon name Shipper was released only a month ago and a blight-resistant oat, Mid-South, was made available to growers in 1957.

A new wilt-resistant pea also came from the Experiment Station Plant Pathology department in 1955 when Dr. W. F. Ware released Mississippi Crowder.

## C of C To Sponsor Entry Into Community Merit Program

The Hancock County Chamber of Commerce will sponsor Bay St. Louis entry into the Merit Community Program.

The Merit Community Program is a carefully developed plan for improving the standard of living in the community.

It is based on the simple and practical idea of setting up a series of community standards and helping the community to achieve these standards.

The program will be designated as a "Merit Community" and will receive a Merit Award, along with local and statewide recognition and publicity.

According to Warren Carver, chairman of Bay St. Louis Merit Community Program, the objective of the plan is to develop a more pleasant and prosperous community life by raising standards of community facilities and services.

To this end, he continued, a practical and attainable set of standards is established to measure a first class community in ten areas of accomplishment.

These are: Beautification Education, Fire Protection, Health and Sanitation, Housing and Construction, Long-Range Planning, Municipal Finance, Police and Traffic, Recreation and Streets.

The Merit Community Program will seek to stimulate attainment of these standards by local volunteer action in co-operation with public officials.

A Steering Committee responsible for policy and direction will be named in the very near future, it was announced.

How do you tell a drunk?

The man was acting strangely. You know what people thought. But the neighborhood pharmacist had a hunch, took a close

look, gave the man sugar. Then he called a physician who found the man was in insulin shock. Too much insulin, not liquor. Without prompt treatment, he might have died. This story illustrates the potency of modern drugs. Before using powerful drugs you should see a physician and then follow directions to the letter when taking them. There's a happier moral. Without modern drugs, the diabetic in this story wouldn't have had a life to save.

## "Toys For Tots"

W W L Radio in New Orleans, has for the Fifteenth consecutive year launched its "Toys For Tots" campaign.

EACH YEAR THE station adopts all children at that city's Charity Hospital and provides new toys for the twenty-four wards, as well as, the special party for the children's "In And Out" Patient Clinic. This year the goal is \$3,000 which will provide \$6,000 in new toys, as the station gets a 50% mark down from the Wholesale Houses.

THE CHILDREN are also furnished ice cream, candy and a band donated yearly by Local 174 American Federation of Musicians. The project is directed yearly by John Vath, Manager of W W L Radio.
